DEATH ON THE GALLOWS.

Six Murderers Launched Into Eternity at Once.

A History of Their Deeds of Blood.

LITTLE ROCK, September 3.—A dispatch by courier from Fort Smith to Athens, forty miles distant, the nearest telegraph station, states that the hanging of the six men at that place to-day passed off quietly. The condemned men were brought out at half past nine o'clock and ascended the scaffold. At ten all showed nerve and refused to make any confession. Moore said he was a game man, and would die game. Fooy said he was as anxious to go as the spectators were to see him go. Whittington said nothing. Evans said nothing. Campbell and Mankiller said they were innocent.

The six men were sentenced at the last term of the Federal Court. There were eight sentenced at the same time. One was killed afterwards while attempting to escape, and the sentence of the other was commuted to life time imprisonment. The names of the men were James H. Moore (white), Daniel H. Evans (white), Samuel W. Fooy (quarter Cherokee), Smoker Mankiller (a full blood Cherokee), Edward Campbell (colored), and John Whittington (white).

The gallows was erected inside the walls of the old fort. The platform is fourteen by fifteen feet, and ten feet six inches above. The trap-door is fourteen feet long and three feet wide.

Smoker Mankiller

was but eighteen years old. He lived in the Flint district, Cherokee Nation. He could read and write in his own language. He could not speak English. He had a wife and children. On the 1st of September, 1874, he murdered a white man, Wm. Short. He stoutly asserted his innocence in a written statement. He charged the witnesses who testified against him with perjury. He had very black hair, stout built, low forehead, and stared his fate in the face with the usual indifference of the Indian. A few days since he professed religion and joined the Presbyterian Church.

James H. Moore

was twenty-seven years old, tall and fine looking, bold and daring. He was a native of Johnson county, Mo., but removed to Texas when a child, where he grew up on the frontier as a murderer, highwayman and horse thief. His equal could hardly be found. He was connected with a band of outlaws in the Indian country. Stealing some horses in Washington, in this State, in connection with a confederate, they were followed and overtaken, when the thieves fired on the posse, killing one and wounding another. They escaped, but were afterwards overtaken. Moore's partner was killed while attempting to escape. Moore was afterwards captured, jailed, tried and sentenced to be hung. When captured he boasted that he had killed eight white men, and Indians and negroes too numerous to mention. He claimed to be the best shot in the West. He had a wife and child living in Texas. As a desperado and outlaw, he was the best representative of the lot. He was baptized in the Roman Catholic faith last Sunday.

Sam. W. Fooy

a quarter blood Cherokee, was a native of Fort Smith, twenty-eight years old, was well educated, married, and had three children. His family resided near Webber's Falls. In July, 1872, he murdered a young man named John E. Naff, near Tahlequah, for three hundred dollars. Knowing Naff had the money, he followed him along a road he was traveling, shot him through the head, and threw the body over a bluff, where it was afterwards discovered by a hunter. Fooy confessed the crime.

Daniel H. Evans

was a nice young man of twenty, a native of Tennessee. He had respectable connections in Missouri, Tennessee and Texas. He murdered a man named Seabolt in November last, near Eufaula, Creek Nation. The two were riding along the road together, when Evans shot his companion, hid the body, took his horse and money, and proceeded on his journey. The body was discovered and Evans arrested three days after, riding the murdered man's horse and wearing his clothes. Evans admitted he associated with outlaws, and in connection with two others robbed a wealthy man in the Creek Nation in 1873 of thirty-two thousand dollars. Twenty-five thousand dollars of this money, he says, is buried in Bosque county, Texas. He says he stuck a pine stick in his victim's flesh, and set it on fire, to compel him to tell where his money was. It would be hard to find one of his age so steeped in crime. After his sentence was pronounced by the Judge he smilingly rose, and thanked the Court for the courtesy shown him. He embraced the Catholic faith.

Wm. J. Whittington

was a native of Georgia, Taylor county thirty years old, and has a wife and three children, who now live in the Chickasaw Nation. Whittington murdered a man named James J. Turner, in February last, in the Chickasaw Nation. Riding home one evening from a groggery along with Turner, an old man and neighbor, he clubbed the latter, knocking him from his horse, and then cut his throat, rifled his pockets and started off. The son of Turner appeared about this time, gave chase to the murderer, overtook and captured him on the Red river. Whittington's knife, covered with blood, was found near the body, and when captured his hat and hands were bloody. He attributed all his troubles to whisky. He was penitent and resigned, and joined the Methodist Church.

Edmond Campbell,

the colored boy, was aged twenty, a native of the Choctaw Nation. He, in connection with two others, killed Lawson Ross and Maria McKenny, on the 13th of Febuary, 1875. Some trouble arose between the parties at a prayer meeting, when the three went to the house of Ross and the woman and shot them.

Edmond Campbell and Frank Butler were both sentenced to be hung, Frank made an attempt to escape some time ago, was shot and killed. The other party connected with the murder was sent to the penitentiary, and Edmond forfeited his life to-day for the crime. He professed religion and joined the Presbyterian Church. All six of these parties were launched into eternity at the same time.

Marshal Fagan and his deputies superintended the execution. The gallows was erected close up and in front of an old pentagon-shaped building. Just over the trap was a strong rope beam, framed on posts and firmly braced. The six men were placed in line, standing side by side.

NEW YORK.

NEW YORK, September 3, 1875.

Erie Railway Affairs.

Mr. Jewett, Receiver, and the Board of Directors of the Erie Railway, have had a conference with the English commission appointed to inspect and report upon the condition of the road, and agreed that the advice of foreign stockholders should be considered in the management. Sir Edward Watkins said the way was clear to a speedy and thorough reorganization without serious damage to the property and interests of the road. As soon as the reorganization is effected they should strive for economical and active management, and though English interests had no power to command it, the new Erie will give its attention to internal development, and waives all ambitious schemes which have proved so disastrous in the past, and would be satisfied in effectually controling what was strictly its own property, and leave railroad wars to be waged by others.

Emigrants Wanted for Virginia.

A party of twenty-five gentlemen from Virginia, headed by General Fitzhugh Lee, arrived here to attend a conference with the leading Northern residents as to the best means of benefiting the material interests of that section of Virginia, which was the chief theatre of active operations during the civil war, and has ever since suffered, owing to the want of emigration.

The Direct Cable.

The officers of the Direct United States Cable in this city are in communication with the steamship Farraday, and if the weather moderates it is confidently expected the cable will be in working order to-morrow.

Fighting Butchers.

Ross and Daniel Leary, two young butchers, quarrelled this morning in the Washington market, and the result was that Leary was fatally stabbed and Ross severely.

Gold Transfer to San Francisco.

The Treasury transferred to San Francisco to-day $150,000; total since the troubles of the Bank of California, $1,900,000.

FROM WASHINGTON.

WASHINGTON, September 3, 1875.

Affairs in San Francisco.

The Director of the Mint in San Francisco sent the following telegram from that city to the Secretary of the Treasury: "An additional half million of gold coin may be transferred from the bullion fund to the Treasury without interfering with the prompt payments of bullion, deposits and purchases by the mint, which is refining on a large scale. Business is improving, and will soon move forward on a more solid basis."

THE PACIFIC COAST.

The Financial Outlook Improving—Probable Resumption of the Bank of California—The Inquest as to the Cause of Ralston's Death Concluded.

SAN FRANCISCO, September 3.—The financial outlook improves every day. General business has resumed its usual channels. The recent coin failures are nearly over, and a much better feeling prevails. Large amounts recently thrown out on the market from the Treasury and the Mint, to which will probably be added $200,000 to-morrow by a transfer from the Treasury to the National Gold Bank and Trust Company, tend to make money much easier.

The affairs of the Bank of California are progressing favorably. In an interview with a prominent gentleman of the directory, this afternoon, assurances were given that the best prospects existed for a speedy reopening. A guarantee capital to the amount of several millions has been already subscribed, and more is promised. The creditors exhibit a disposition to grant a reasonable extension on their demands, and the stockholders, without an exception, so far as seen, express their willingness to enter into the proposed arrangements. A further examination into the state of the assets warrants the assertion that their condition is better than at first supposed. The Directors at present prefer to make public no detached statement as to the assets and liabilities, though information was privately afforded to assist in obtaining a general knowledge of the condition of the bank, which goes far to confirm the recent favorable reports. No definite time is stated for the resumption, but a delay of about two weeks was estimated, at which time a full statement of affairs will be made public.

The San Francisco Stock Exchange held a meeting to-day. $25,000 was subscribed to the guarantee fund of the bank, and subscriptions were made by individual members amounting in the aggregate to from $250,000 to $400,000. The board will not probably resume its session until the bank begins payment, and in the meantime discourage any business on the street. Private transactions were made, however, to-day, at the following figures:

Consolidated Virginia, 240; California, 52; Ophir, 42; Crown Point, 27; Best and Belcher, 40 bid; Gould and Curry, 16; Yellow Jacket, 55; Belcher, 21; Mexican, 27. The best of feeling prevails among the brokers.

The inquest as to the cause of Ralston's death was concluded. The report of the chemists showed no evidence of poison in the stomach, and the jury returned a verdict of accidental death from congestion of vital organs and drowning.

The National Gold Bank and Trust Company report good prospects of early resumption.

Who Captured New Orleans?

Hon. Gideon Welles Claims that Admiral Farragut Captured the Crescent City.

HARTFORD, September 3.—Hon. Gideon Welles has written an article, published in the *Times* of this city, in defence of Admiral Farragut as the capturer of New Orleans. The article is in reply to a statement in a recent decision of the United States Supreme Court, delivered by Justice Swayne, in the case of the City of New Orleans, appellant, vs. the New York Mail Steamship Company, in which the expression occurs: "On the 1st of May, 1862, the army of the United States captured the city of New Orleans." Mr. Welles proves that the city was captured by Farragut on the 25th of April, and held by him until the arrival of the troops. He also quotes from the records of the War Department to show that repeated injustice has been done to the Admiral. A chronological record published by the Department, and purporting to give a record of all events of the war, does not contain Farragut's name, and gives credit for the capture of the ports on the Mississippi below New Orleans to Admiral Porter, who was a subordinate under Farragut. The article concludes: "I have felt it a duty to the navy, to the truth of history and the most distinguished hero of the war, to correct the persistent misstatements which have been and still are made in regard to the capture of New Orleans, and to some of the attending circumstances and events of that period. The document which is sent out by the War Department as a 'Chronological Table of Battles, Skirmishes, etc., Which Took Place During the Rebellion,' is not truthful and reliable, in so much as it suppresses or fails to make mention of some of the most important and conspicuous battles which took place, and wholly omits the name of the most distinguished hero of the war."

THE CALIFORNIA ELECTION.

The Result Still in Doubt.

SAN FRANCISCO, September 3.—The vote of the State, as far as heard from, except San Francisco and Sacramento, which are much mixed, gives Irving 21,694; Bidwell 9,973. In the Second Congressional District—Page, 4,891; Larkin, 4,361; Tuttle, 1,267. Third District—Lutterell, 5,641; Davis, 2,666; Reed, 2,165. Fourth District—Wiggenton, 6,442; Houghton, 4,803; Thompson, 1,675. In this city Piper is undoubtedly elected, but the other officers are still undecided.

Later.

The result of the election in this city is undecided. The manner in which the ballots have been counted renders the result difficult to report till the State is fully canvassed. Page is probably elected to Congress in the Second District. No returns were received to-day to modify other previous reports.

Still Later.

With a few exceptions the Ring have likely captured the city. The contest between Clayton and Bryant is still undecided. Bidlan, Independent, no doubt is elected Assessor. One or two minor offices are in doubt. Otherwise the Democrats are thought to have made a clean sweep.

SEASONABLE SPORTS.

The Races at Hartford.

HARTFORD, September 3.—The race for the 2:34 class, purse of $3,000, was won by Orient. Time 2:24, 2:24 and 2:25¾.

The race for the 2:28 class, for a purse of $4,000, was won by Rarus. Time 2:22¼, 2:22¼ and 2:25¼.

In the free for all race there were but two starters—Hopeful and American Girl. The race was won by the former in three straight heats. Time 2:17¾, 2:18¼ and 2:18¼.

Goldsmith Maid trotted for a purse of $2,000 to beat her own record. She was accompanied by a running companion, and trotted the first heat in 2:22½, and the second in 2:14½, failing to beat the record of 2:14 at Mystic Park.

The Louisville Bank Robbery.

LOUISVILLE, September 3.—The case of Louis Rehm, teller of the Planters' National Bank, charged with robbing the safe of $100,000, was continued one week, the bond being placed at $50,000. He was unable to give that amount, and is now in jail. The affair has caused great excitement, and speculation since it became known. Rehm's foolish action and lack of nerve are themes of general conversation. The bank resumed business to-day, and also filed a suit against Rehm for an attachment against his property. The petition states that he was taken into the employ of the bank five years ago, at which time he gave a bond for the faithful discharge of his duties. It is claimed he has not done so, $20,000 having been embezzled by him. The petition alleges that Rehm is indebted to the bank to the amount of the embezzlement, for which they pray judgment and an attachment to restrain him from selling his property. Most of his property has been attached since the suit was entered.

The Soldiers' Reunion at Caldwell, Ohio.

CALDWELL, OHIO, September 3.—The Soldiers' Reunion closed to-day. The morning was devoted to short addresses and the formal return of the much talked-of sword, which was captured from Col. S. M. Archer, of the Seventeenth Iowa Regiment, by Major W. E. Estis, of Texas. Owing to unavoidable circumstances, neither of the principals was present, and in their absence Senator Cockerill, of Missouri, who commanded the brigade with which Major Estis was connected, presented the sword on behalf of Estis to General Warner, of Marietta, who received it on behalf of Col. Archer. The ceremony was both interesting and impressive. The afternoon was occupied with short speeches and the singing of patriotic songs. The reunion formally closed at four o'clock, when the tents were struck and the company separated, having had a pleasant three days' meeting.

Arrested for Adultery.

ST. LOUIS, MO., September 3.—The *Republican's* Kansas City special says a well known stock speculator of that city was arrested to-day on a charge of living in adultery with a lewd woman, brought against him by his wife, who arrived there last night from Chicago. The says Sheehan deserted her three years ago without cause, and she now intends to make him support her and her child. Sheehan was brought before the Police Court to-day. The case was continued till to-morrow. Sheehan's mistress was present, dressed in a flashy manner, and contrasted strangely with Mrs. Sheehan, who appeared to be an honest, respectable woman.

The Charley Ross Case.

PHILADELPHIA, September 3.—The whole of the morning session of the Court in the trial of Westervelt was occupied in the cross-examination of Police Superintendent Walling, of New York. No new facts were elicited.

A Turkish Victory in Herzegovina.

Greece's Neutrality in the Struggle.

A Turkish Consul Refused Admission to Belgrade.

TURKEY.

British Interference Urged.

LONDON, September 3.—The *Times*, commenting on the Herzegovinian troubles, strongly urges the fitness and duty of Great Britain to interfere.

Turkish Victory.

LONDON, September 3.—A dispatch from Therapia, a suburb of Constantinople, in which foreign Ministers reside, says the Turks in Herzegovina have gained a victory, and 10,000 insurgents have been driven across the frontier into Dalmatia, where they have been disarmed by the Austrians. Nevesigne, the focus of the insurrection, has been destroyed. Communication by the way of Kleck has been re-established.

An Explanation Demanded.

The Turkish Consul at Semlin, desiring to visit Belgrade on private business, was refused admission, and the Porte has demanded an explanation.

Proposed Reforms in Herzegovina.

LONDON, September 3.—A special from Constantinople to the *Times* states that Cerver Pasha has been instructed to issue a proclamation on his arrival at Mostar, giving assurances that henceforward no vexatious or illegal acts will be permitted in the name of the Government. He has also been directed to dismiss and punish officials guilty of oppressing the people, to institute a special tribunal, which shall examine and satisfy the demands of those who have been objects of arbitrary treatment, to recall any persons exiled without just cause, and expel agitators. He is authorized to employ all necessary means to execute these instructions. The Porte, while determined to repress the insurrection at all costs, intends to extirpate abuses likely to lead to its repetition.

The Insurrection in Herzegovina Maintained by Robbers.

The *Standard's* special from Constantinople represents that the insurrection in Herzegovina is now maintained by bands of robbers. Not a single insurgent is to be seen around Trebigne. The fugitive insurgents have driven 18,000 head of cattle into Dalmatia for security.

Greece's Neutrality.

A semi-official journal of Athens vindicates the Government of Greece in its neutral attitude towards Turkey. It says the Sclavonians never helped the Greeks in Crete, and Grecian interests imperatively call for friendship with Turkey.

The *Neologas*, the Greek organ of Constantinople, advocates an alliance between Greece and Turkey.

The Mediation.

LONDON, Sept. 4, 5:30 A. M.—The Moscow *Gazette* says the mission of the mediating consuls at Ragusa is likely to fail. The consuls are not entitled to guarantee Turkish concessions to the demands of the insurgents on the one hand, and on the other the insurgents are destitute of a common chief who could pledge himself for the ratification of any agreement.

The Porte and Servia.

A *Times* dispatch from Berlin states that the Porte has declared, in reply to the cautions of the powers, that he is willing to refrain from offensive measures against Servia provided the Servian Government does not directly or indirectly assist the insurgents.

INDIA.

CALCUTTA, September 3.—The Government here has heard nothing to confirm the report telegraphed hence to the London *Times* that the King of Burmah refused to receive Col. Duncan, and the story is generally discredited.

Carlist Defeats.

BY MAIL.

From China and Japan.

YOKOHAMA, August 14.—There was a heavy typhoon in the China sea. Several ships were wrecked. There was great damage in the central provinces of Japan. Farms were flooded and many lives lost. Houses, bridges and upwards of $2,000,000 worth of produce were destroyed. The rain fall was seven and a half inches in a few days.

Official notice was received by the Japanese Foreign Office of the appointment of Chinese diplomatic agents to reside in Yeddo.

HONG KONG, VIA SHANGHAI, August 5.—The declarations of the Chinese authorities respecting the Formosa savages now prove empty threats. The troops refuse to follow the aborigines, who in the heart of the island have revolted by regiments. The savages remain masters of the situation, and the Chinese military operations are suspended. A body of returned soldiers from Formosa, after landing at Foocho, assaulted an American lady and gentleman with violence, severely bruising both.

The Chinese Government is preparing to send diplomatic representatives to leading Western nations. According to a report, they will be preceded by a roving misson similar to Burlingame's, under Hart, inspector of Customs.

A British commission started for Gunan to investigate the murder of Margary, accompanied by Viceroy Lehan Chang and by Clem, a Chinese magistrate of a mixed court of Shanghai.

Forty thousand taels have just been paid to the French legation for the murder of a French priest in Sgt. Chuen, six months ago.

There is much excitement by the refusal of Li Hung Chang, Viceroy of Chili, to allow Elmore, the Peruvian Charge, to proceed to Pekin for the ratification of a treaty. The Viceroy demands a guarantee for the good treatment of Chinese in Peru, which Elmore is not prepared to give, declaring them unnecessary. The Viceroy announces that Elmore shall not leave Tien-Tsin until such pledges are given. It is commonly understood that the resistance is in consequence of Russia's arbitration against Peru in favor of Japan in the coolie question.

The evidence is daily growing stronger that England is to make the Margary murder a pretext for seizing and annexing Burmah. Large bodies of British-Indian troops are concentrating on the frontier.

THE GRAVEYARD WAR.

An Armed Mob at the Catholic Cemetery of Montreal.

Troops Held in Readiness to Suppress any Outbreak.

MONTREAL, September 3.—After the departure of Guibord's remains from the Catholic cemetery gates yesterday afternoon, the mob remained in force on the ground until the arrival of the Mayor and fifty police, when they immediately abandoned the gates and dispersed. Before this, however, some of them had filled up the empty grave and torn down the cross over it. The Prince of Wales' Regiment rendezvoused last evening, and is held in readiness for any outbreak. A mob numbering several hundred, and well armed, were at the cemetery to-day. It is not known when the funeral will be attempted again. The priests deny that they instigated the riot. The feeling runs very high between the Catholics and Protestants. The Orangemen talk of turning out at the funeral.

The Commissioners then sat as a Court of Inquiry, and some forty white men and Indians were examined under oath regarding the matter under investigation. The Indians were divided into two parties, one in favor and the other against Gibson. Both sides were allowed to bring in their witnesses without reserve.

A Fatal Mistake.

POTTSVILLE, PA., September 3.—Two young men, named Young and Kirby, while driving near Lanagan's path, were accosted by two special policemen. Thinking they had fallen into the hands of some of the outlaws who now infest the mining regions, one of them drew a revolver and fired, wounding one of the policemen. The other officer returned the fire, killing Young instantly. Kirby fled to the woods and escaped. Great excitement exists throughout the Schuylkill region in consequence of the prevalence of crime, and in several localities vigilance committees are being organized.

Cobblers' Strike.

NATICK, Mass., September 4.—A general strike was inaugurated to-day among the workmen in all boot and shoe establishments at Cochituade, 800 employes being idle. METHODIST CONFERENCE.

The Educational Interests of the Church--Plea for Centennial Offerings--The Spiritual Condition of the Churches--The Report Not as Encouraging as Desired--The Ministerial Educational Fund--The Appointments for Sabbath Preaching.

Correspondence of the Pittsburgh Gazette.

CASTLE SHANNON, September 2, 1875.

Thursday evening was devoted to educational interests.

N. R. Swift, agent for Adrian College, addressed the audience on the interests of said institution, showing its present status and prospects for the future. The number of students is increasing from year to year. Its financial strength is also increasing, but not yet sufficient to carry on its operations on such a scale as is desired by its friends.

The interests of our Church and the welfare of Christ's cause in general, demand that Adrian College be furnished with means to prosecute its work vigorously and without any embarrassment. The General Conference asks the Church to bring to God a centennial offering, laying the same upon His altar through the general agencies of the Church, such as the cause of Missions, Ministerial Education, Publication, and College interests, the whole to aggregate $200,000. This, it is thought, can be done without distressing any one, if each will do what he can. The work has already been commenced at Adrian. Books, circulars, &c., are prepared for all who are willing to work.

Dr. W. Collier followed with some remarks, urging all to give, but especially that the rich must give liberally if we would succeed as we should. But *five dollars* per member would more than meet the requirements of the General Conference.

Rev. T. F. Scott urged all to give. Rev. S. F. Crowther advocated systematic beneficence as the only way to success. Rev. E. A. Brindley urged system. W. Wallace urged education in this work.

FRIDAY, September 3, 1875.

The morning session was opened by Rev. N. R. Swift with the usual services.

Rev. D. Kinney, President of the Nebraska Conference, was introduced and invited to an honorary seat; also, Rev. Mr. Wood, of Greene county, Pa.

Committees were called. Several of them reported progress. The Committee on Unfinished Business reported several items; among them the following item: 1. On the Methodist Church, at Little Washington. The committee appointed last year reported that the church was leased to the Second Presbyterian Church, of that place, but not in accordance with the laws of the Methodist Church, and was, therefore, illegal. The Methodist Church of Washington being virtually extinct the committee recommend that the church be sold to the Presbyterians, and that it now be offered for sale. W. Collier, T. H. Colhour, and John Cowl were elected a committee to carry out said recommendation. J. Robinson, Committee on Second Church, Pittsburgh, Pa., reported that said church has gone into independency.

J. J. Wagoner, J. Blackshaw, A. T. Wolf, W. C. Pearsal, J. B. Bartholomew and G. G. Conway presented papers recommending them for work in the ministry. Referred to the Committee on Itinerancy and Orders. The Committee on the Spiritual State of the Churches in the district—John Scott, Chairman—reported that the churches, from the information before the committee, are not in as good spiritual condition as it is desirable they should be. They recommend that the Conference call upon its members for oral reports in reference to their own and the spiritual condition of their churches.

Conference adopted the report and immediately set apart an hour, from 11 to 12 o'clock, to hear reports on this subject. It was resolved that the roll be called, and that the members respond as their names were called. J. Robinson called. Is Book Agent; hopeful and happy spiritually, but afflicted by deafness; his charge, the publishing interest, is in a prosperous condition.

John Scott, pastor of Grace Church, Cincinnati, O., reports himself in hopeful spiritual condition, his pastorate—Grace Church—not as strong as it was years ago, but active, financially strong, having a good new house of worship.

John Cowl, pastor of First Church of Steubenville, O., reports himself in comfortable spiritual condition, but his charge not as devoted to the work as they should be, though strong numerically and financially, and having large audiences and good thriving condition.

H. Palmer, of Trumbull, O., reported himself in hopeful condition spiritually, his pastorate moderately so.

J. B. Lucas, pastor of Manchester Church, spoke of himself as in a hopeful way.

R. H. Sutton, superannuated, reported himself in poor health, but in good hope of a better world.

J. Cowl was released from serving on the Committee on Missions, and G. G. Westfall was elected in his stead.

Dr. Laishley released from Committee on Itinerancy and Orders, and E. A Brindley elected in his stead. W. T. Hazelet released from same committee, and D. C. McCann elected in his stead.

Adjourned after benediction by President Kinney, of Nebraska.

AFTERNOON SESSION

opened in the usual way at 1½ o'clock, by D. Kinney, President Colhouer in the chair.

J. H. Hull chairman of the Avery Deed of Trust, and Charter of the Preacher's Aid Society. Referred to the Preacher's Aid Society for its action.

A Committee on Publishing Interests having been overlooked was constituted consisting of J. H. Hull, Phipps, Meyers, Ministers, and J. C. Evans, and T. B. Evans, laymen.

Committee on Superannuate Relations—W. H. Phipps, W. T. Wilson, G. W. Temple. Committee on Centenary Offerings—W. R. Cowl, G. B. Dotson, C. A. Sipe. Committee on Special Cases—S. F. Crowther, Chairman, reported, recommending the reference of J. H. Smith and R. C. Moulton to the President for judicial investigation. The Committee on Boundaries reported, recommending that the city mission work under care of W. H. Phipps last year be incorporated into the regular work. Report adopted. R. C. Miller and J. A. Gahret were recommended a Committee on Itinerancy and Orders for Elders Orders.

The Committee on Itinerancy reported, recommending Th. I. Elliott, of Webster, W. Va., J. J. Wagoner, of Cookport, J. B. Bartholomew for ministerial work, and W. C. Pearsal for ordination. The Committee on Temperance reported a good strong paper on the subject of total abstinence and prohibition of the liquor traffic. Also taking strong grounds against the use of tobacco. J. H. Stone, pastor, Stablstown, Pa., reported active all year. The Committee on Ministerial Education reported, showing a falling off of receipts, and urging pastors and churches to increase their diligence and liberality. Twelve young men are now at Adrian College preparing for the ministry, who are depending on aid through that Board.

The Committee on Pulpit Services reported the following appointments for Sabbath, September 5, 1875:

HOLLOW ROCK.

Continuation of Services—The Interest Increasing—Sanctification Meetings—The Ministerial Record.

Correspondence of the Pittsburgh Gazette:

HOLLOW ROCK, September 3, 1875.

Dr. Riley gave his farewell address at 10 A. M., as per notice, and left an impression upon the minds of his hearers not soon to be forgotten. Afternoon services by Rev. J. R. Mills. After Dr. Riley, Rev. Mills seems to fill the bill as an expounder of sanctification. As an orator he is short of his illustrious predecessor, but as an earnest exponent of the peculiar doctrine of this apparently higher law of Methodism, he is certainly an ardent, honest advocate, and seems to have a great influence. After closing, he exhorted his hearers to come forward and seek sanctification.

Prayer was made by Miss Stratton, who plead for the brethren and sisters to come up to the good work and take hold of sanctification.

The tabernacle is well filled each time the bell rings and a call issued for tabernacle service.

The ladies held a prayer meeting this P. M. up on the hillside, but not so far away that we missed the familiar key note of Miss Stratton, who is working with a will.

Among the ministerial arrivals so far I notice Rev. Dr. Riley, Rev. G. W. Dennis, Rev. Ball, D. S. Lee, J. Stevens, J. R. Roller, G. Kinnear, — Lowman, Thos. Anderson, J. M. Bray, Wm. Beregoy, H. McCall, — Hudson, — Rice, Jas. Russell.

Rev. Hudson is musical director; he fills the bill, has a good voice, is a good timist, and sings with a will and force that is truly magnetic.

Visitors need have no fear of starving; the boarding house alone can feed all that may come, and ladies will find Mrs. Aughinbaugh an accomplished, obliging lady, who will be pleased to render their stay pleasant and agreeable. Opposition tracks have knocked down the fare to ten cents. Cheaper to ride than stay at home. S.

European Steamship Arrivals Yesterday.

Dispatches received at Max Schamberg's European Steamship, Exchange and Telegraph Office, at 163 Smithfield street, announce the arrival of the steamer State of Georgia, at New York; steamer Leipzig, at Southampton; steamer Somerset, at Bristol; steamer Bolivia, at Moville.

ALLEGHENY POOR BOARD.

Meeting Last Night—Reports for August—The Condition of the City Home—Expenditures During the Month—The Catholic Chaplain Resigns—Election of a New Steward—General Items of Interest.

The Allegheny Board of Poor Directors met last evening.

The monthly report of the Steward, Mr. D. T. Johnson, was submitted. He reported the admission of 25 persons to the poor department, 16 discharged and 2 died, leaving 153 inmates in this department in August 31st. In the insane department 4 were admitted, 3 discharged and 1 died, leaving 45 inmates in this department in August 31. Report received.

The Secretary, Mr. R. D. McGonnigle, reported the expenditure of $124 to resident poor and $23.50 to non residents, and $79.40 for sundry expenses. During the month $191.89 was collected for boarding pa pers.

A communication was received from Dr. B. B. Smith, physician to the Board, stating that there was room for six more patients in the insane department, and suggesting that that number, who are now being maintained at the Dixmont Hospital at the Board's expense, be removed to the Poor House. Communication received and a sub-committee appointed to attend to the matter.

The Steward's requisition for supplies was received and referred to the Supply Committee.

Bills to the amount of $2,243.34 were approved.

A letter was received from Rev. Father Kearney, resigning the position of chaplain to the Poor House, for the reason that under the new rules he would be required to preach on every other Sunday, instead of preaching during the week.

After some discussion, Messrs. Walter, Hutchinson, and Ley were appointed a committee to attend to the filling of the vacancy.

Mr. Speer moved that the Steward of the Poor Farm take an inventory of the stock and material of the Poor House before he leaves. Adopted.

The Improvement Committee was authorized to erect a carpenter shop on the Poor Farm.

Mr. Workman was placed on all the committees on which Mr. Grubbs served.

The Board then went into an election for a Steward for the Poor Farm, to fill the vacancy occasioned by the resignation of Mr. D. T. Johnston. Messrs. T. F. Grubbs, John G. McElheney and James McElroy were nominated.

Several petitions and communications relative to applicants for Steward were presented by the clerk, and on motion were laid on the table.

The Board then proceeded to an election. The result was as follows:

Grubbs............8 McElheney........3
McElroy............0

Mr. Grubbs having received the requisite number of votes was declared elected Steward of the Poor House.

Adjourned.

ACTION AGAINST AN ALDERMAN.

Suit was begun in the Common Pleas Court No. 2 yesterday, by Bridget Mellon against Alderman O'Donnell, to recover fifty pounds damages for performing the marriage ceremony of a minor son to a young lady without having given due notice by publication or having procured the consent of his parents. The action is brought under an old law of the commonwealth, which fixes the penalty for performing a ceremony under such circumstances at the amount named.

Report of a Master.

It will be remembered that a bill in equity was filed in the Common Pleas Court No. 1 in August 1874, by James Kelly, praying for an injunction to restrain the city from enforcing the collection of taxes on a tract of land containing eighty acres belonging to him, in the Twenty-first ward. He also wanted the equalization ordinance declared null and void. He claimed that the valuation was too high, that the taxes levied were grossly illegal, and that the city had no municipal jurisdiction over the land. The matter was referred by the Court to Thomas MacConnell, Esq., as Master, to take testimony and report. Yesterday morning Mr. MacConnell filed his report in Court, in which he holds that the Court has no power to relieve Mr. Kelly, and that the Legislature alone has the power. He therefore recommends that the bill be dismissed with costs.

PETROLEUM at Antwerp 26¼.

BONDS at Frankfort, new 5s, 100¼.

GOLD closed in New York yesterday at 114½.

GOVERNOR BEDLE, of New Jersey, has appointed General Mott, of Bordentown, Treasurer of that State, in place of Mr. Sooy, resigned.

SEPTEMBER opens warmly. It has been a remarkable Summer, our cool weather being in the earlier part of the season, and our hot weather at a time when we usually expect cool nights and fall experiences.

IT IS now reported that the Erie Convention is to instruct the Legislative Committee what to do in the way of investigating the Treasury. This is a new idea, a political convention directing the operations of an investigating committee.

GENERAL FROSSARD, prominent as an officer in the French army during the Franco-German war, died yesterday. He was a brave, but unfortunate officer, and was among those who found it necessary to justify their war record to the French people.

HARRIS, the first of the negroes in Georgia, tried for inciting a riot, and arranging for the massacre of the whites, was acquitted yesterday. The defense offered no testimony, the prosecution having, absolutely, no case. No proof of criminal intent was submitted. So ends the great scare.

A REPORT comes from Washington, that so soon as the five per cent. issue of bonds is exhausted,—but $32,000,000 remaining,—the four and one-half per cents, will be issued to provide for specie resumption in 1879. The aim is to prepare gradually for resumption, with little disturbance of the money market.

THE Democracy are actively preparing for their Erie Convention. Eli Slifer has formally declined to be a candidate for Treasurer, and others are withdrawing from the contest. Bigler and Ross are struggling for the leadership, with the prospects favorable to Ross. The battle, even with the withdrawals admitted, will still be fierce.

THE Harrisburg organ of the Prohibition ticket announces Rev. Mr. Brown, its candidate for Governor, to speak on the issues of the day,—political,—on two successive Sabbaths during September, at Kennett Square and Danville. We hope the announcement is an error, as we dislike to think the Reverend gentleman would desecrate the Sabbath in the interest of politics.

OUR friends should bear in mind the primaries of to-day, and manage to attend. The position of County Treasurer is one of great importance, and we should select a candidate who will give strength to the ticket. It is our duty to remember that the primaries are the starting point for the control of general politics. Those who would exert a decided influence on the politics of the county or State, cannot afford to neglect the primary meetings. Attend to-day.

THE Georgia "conspiracy" has been sifted, and it amounts to this: An idea had become prevalent among the ignorant portion of the negroes that Grant was to be King, and there was to be a separation between the whites and blacks, the latter to have equal privileges with the whites, but to be separate. They had formed secret societies, with oaths, pass-words, and the like, and a day was set when the new order of things was to be inaugurated. There was no massacre intended, and the whole affair was a mere bit of childishness, practiced by the ignorant but hopeful colored people.

WHEN the first of the recent list of accidents from insecure railways bridges occurred, we urged that an immediate examination be made of all bridges traversed by railway trains. We have had several accidents since the first, some of them occasioning considerable loss of life. That near Newburgh, a day or two since, is a case in point. A large number of persons received injuries, and a few were killed. We assume that these injuries, coming in frequent succession, from the same source, indicate the possibility of general insecurity of railroad bridges. An examination should be made.

IF the interview with Mrs. Mosher, published in the New York *Herald*, be faithfully reported, it is a very significant statement she makes, and evidences that she both knows the child Charley Ross, and that he is still alive. It seems unfortunate that a person so palpably acquainted with the facts cannot be compelled to divulge what she knows; but persons thus situated are apt to know precisely what can be demanded of them, under the law,—and this is the case with Mrs. Mosher. In the meantime the Westervelt trial progresses, but without any evidence that furnishes light as to the whereabouts of the stolen child.

IN Ohio, the Catholic phase of the two platforms has come into prominence, and is being discussed with great vigor. Allen, with the boldness of despair upon him, declares that while he is not a member of any church organization, he has given money to aid in the erection of Catholic churches, and cares not who knows it. We do not suppose that any one particularly cares whether he gave money to erect such churches or not, but the bravado of the thing is what will arrest attention. It is equivalent to the declaration that he rests confidently on the votes of the Catholic population for success, and will be faithful to them in the event of success. We hope he will repeat these declarations steadily during the remainder of the canvass.

THE President of the British Iron and Steel Institute, in an address recently delivered, complains of the competition directed against English manufacturers, and especially that the United States, by its tariff system, discriminates against competition here, and by our export of manufactures, are directly competing in the Eastern markets. A hint that this would be remedied, so far as India is concerned, indicates that England may discriminate in that important part of her possessions against rival traders. We are not surprised at this, as it illustrates what we have frequently urged, that her policy would change with her interests. The pith of it is,—we should not be governed by English example or advice, as it all tends to the interest of English manufacturers, and what is to their interest is not always to ours.

THE New York *Tribune* has at least one virtue,—it is zealously grateful for the $50,000 said to have been expended on it in behalf of Tilden. It proposes that the Republican State Convention, which meets at Saratoga next week, shall pass a resolution of thanks to Governor Tilden for his campaign against the Canal Ring. In other words, it thinks he should have a little political capital contributed to him by the Republican party, as an aid toward a Presidential nomination. This is a violation of a general principle, strongly maintained by Mr. Greeley when he edited the *Tribune*. He urged that when a man did only what was his duty, he deserved no special recognition. Tilden knew the secrets, to some extent, of the Canal Ring, and did no more than his duty in aiding its exposure. Let the Democratic Convention thank him for it first.

THE suicide mania has again broken out, and seems more prevalent than it has been for years. Persons of all ages, from the old to the very young, and of all conditions in life, are infected with the tendency to suicide. It is difficult to give satisfactory reasons for the evil—the heat of the atmosphere, the infection of example, failure to realize the value of life, or the terribleness of death, poverty, hopelessness, and the like, are mentioned, but none, or all, account for many cases that occur. It is probable, however, that atmospheric heat has much to do with producing the necessary mental conditions, yet proper home influence and right education ought to be powerful preventives of suicide. We have long been impressed that there should be more frequent and vigorous teaching on this subject. In place of the sympathy that is usually lavished on the victim of suicide, the utter cowardliness of the act should be forcibly dwelt upon. True courage impels us to live and fight the battles before us; but to skulk into eternity is contemptible.

AN innocent three-line item in the GAZETTE seems to have produced a flurry in the sweet consciences of two of our contemporaries. The *Leader*, which acts as an apologistic tender to the *Dispatch*, simpers over the beautiful display of moral courage involved in apologizing for errors, in the face of threatened libel suits. The compliment is gratefully digested, in a half column of quotation and comment by the *Dispatch*. We have only to say to it all, that when it is the boast of the reporters of a journal that it has a "black list," and that if offense is given it or them, by refusing advertising, or hesitating to pay bills that were not ordered, or by a lack of obsequiousness to said reporters, or for any other private and personal reason, their names are to go on this black list, for misrepresentation, abuse, or else, as circumstances may offer, it hardly comes up to the high moral standard set by the *Leader*. And when, in the face of threatened libel suits there is a cringing, contemptible, and undignified back-down, we call it eating humble pie. We fully endorse the general principle of the manliness of rectifying errors, but it doesn't need the threat of a libel suit to induce a respectable journal to do this. We also understand the difference between a dignified apology, and eating humble pie. It is generally understood in this city that the result of the *Post* libel trial was fully appreciated by the *Dispatch* proprietors; and this threat of a libel suit, based on an undoubted injury,—intentional or unintentional, took all the courage out of them. To grovel in the dirt, and bellow for mercy, doesn't represent a very high order of dignity; and to endeavor to elevate a contemptible whine into a dignified and voluntary correction of unintentional error doesn't argue a very high order of perception for the apologist.

ITEMS OF INTEREST.

THE French General Frossard is dead.

THE population of London now exceeds 3,500,000.

THE Russian General Kaufman has entered Khokand.

MONSIGNORE RONCETTI is to be appointed to a high ecclesiastical dignity in America.

NOTHING will sooner tempt a bachelor to abandon his resolution to marry than to sleep in the adjoining room to a couple with a colicky baby.

A ST. JOHNS (New Foundland) dispatch states that the whaling schooner Abbie Bradford, spoken at sea, reports the loss of a mate, Mr. Robertson, and five men in a boat last September.

LOUIS REHM, teller of the Planter's National Bank of Louisville, who confessed to having robbed the bank himself, was presented in the City Court on Friday morning. He was held in $50,000 bail to answer.

THE Canadian Government is proud of its red men, and anxious to preserve them. Liquor-dealers who furnish them fire-water are fined $500 and imprisoned two years. And the worst of it is that the fine is payable in gold.

JOHN P. JONES, general inside boss for the Lehigh & Wilkesbarre Coal Company at Lansford, was shot dead on Friday morning. One hundred and fifty men and boys were within a short distance of the scene of the crime, but the murderer escaped.

THE letter of M. Gounod, the eminent French composer, declining the direction of the American College of Music, to be established in New York city, is published. It closes thus: "If I dared to offer any advice it would be to put an American at the head of an American Conservatory, whoever he may be."

A HEAVY rain on Thursday washed a good deal of track on the Chicago & Northwestern road near New Jefferson, Iowa. A cattle train went through the bridge at that place at eight o'clock last Thursday night. Twelve cars were smashed and nearly all the cattle killed. No men were seriously injured.

THE interest evinced by the French Minister of Agriculture and Commerce in having his country well represented at the Centennial Exhibition promises to be productive of good results. He takes an enlightened view of the enterprise, and judges rightly that a good display of French products will increase the demand for them.

THE trial of Cordery Harris, the colored man accused of attempting to incite insurrection among the negroes of Sandersville, Ga., closed on Thursday evening with a verdict from the jury of not guilty. The defense introduced no witnesses. The acquital of Cordery Harris was simply the result of the failure of the prosecution to produce any proof of criminal intent in any of the acts of which the prisoner was accused.

A NEW style of Old Catholicism has recently been started in Italy called "The Italian National Catholic Church," which has already brought down upon the head of its founder, Domenico Panelli, a wrathful fulmination from the Pope. The Holy Father stigmatizes the organization as "an impious sect or faction, with the title of *Chiesa Cattolica Nazionale Italiana*, having prepared for the government of the same a constitution called *commatico-organico-disciplinari*."

SHEFFIELD is a type of the new manufacturing towns in England, and her reception of the Prince and Princess of Wales, on the occasion of their visit a few weeks ago, was therefore peculiarly interesting. The visit in itself was significant. It was almost in the nature of a royal pilgrimage to the shrine of England's patron saint. It was fitting homage from the heir-apparent to the power which keeps him on the throne, and which furnishes him standing at home and influence abroad.

THE way in which Mr. Ralston did a banking business on a gold basis is aptly illustrated by one of the schemes in which he was engaged at the time the crash came. He had taken a part of the gold which had been deposited with him and invested it in a huge timber-tract in the Sierra Nevada. He had erected extensive saw-mills, and was preparing all the ways and means for furnishing San Francisco with lumber. He had built wagon-roads from the city to his timber-region. He was constructing a tramway and a railway. Nothing which gold would buy and he needed was spared. He had 3,000 men at work at his timber, his saw-mills, his roads, and in one way and another. This is one of the reasons why Mr. Ralston did not have the gold on hand when his depositors demanded the money they had placed in his bank.

An Oriental Judgment.

A native of India, one of her Majesty's subjects whom the Prince of Wales is about to visit, recently brought a curious suit in one of the native courts. The plaintiff invited a number of friends to a dinner party. The guests accepted, but for some reason which does not appear, neither attended nor sent any apology. The man whose hospitality was so uncourteously treated summoned his faithless friends before a district magistrate, and his Honor gave judgment for the plaintiff in the sum his entertainment cost. This was certainly an equitable judgment, and worthy of Haroun al Raschid himself. The Prince of Wales must be on his good behavior. But as happens in other cases and in other countries, what is equitable is not always legal, and an English Judge before whom the case was carried by appeal, reversed the decision. His Honor remarked that if the law laid down by the lower Court were correct, "the risk of accepting invitations would be very serious indeed." Well, there should be *some* risk if a man intends to accept a courtesy which he intends to retaliate by an insult. And there should be no risk in the amenities of social life. Generally such offenses are punished by the unwritten code of social usages, and the man or woman who elects the part of the bear is baited by society. And there is, unfortunately for the culprits, no court of appeal when a man is sent to Coventry for his neglect of the courtesies of life. The women have jurisdiction in such cases. Their promptness in dealing with social derelicts shows that in good time coming, when women are to sit on juries, and even on the bench, offenders will lose the benefit of the law's delays. Imagine a lady among us incensed and outraged, as the Indian dinner giver must have been, by the studied insolence of men who neither put in an appearance or send a regret!

The banks are accumulating funds again, the deposits exceeding the drafts. The favorable feeling noted for several days past still continues, and the belief is extending that we shall have a good run of business in the fall. All this, however, is predicated upon general considerations, and not on anything actually developed. The first of the month has produced a certain current activity at the banks, but it merely means that monthly settlements are in progress. The grain and crop records we have already stated, and the estimates made are fully sustained by later facts. Beyond this general feature, and a small case of bankruptcy, yesterday, there is nothing worth of special mention.

The following shows the coinage executed at the U. S. Mint during the month of August, 1875:

NEW YORK, September 3, 1875.

Gold opened and closed at 114¼, with sales at 114⅛ and 114⅜. The rates for borrowing were 3-64, 1-32 and 1-64 per diem, and 7, 6, 2 and 3 per annum. At the close loans were made flat. Governments were firm. Railroad bonds were in active demand, particularly for Pacific issues and Northwest consolidated. The latter sold at 98⅛. State securities were quiet. The dry goods imports for the week were $2,682,000.

The stock market was firm at the opening, but afterwards a decline of ¼ to ⅜ per cent. took place, except in the case of Erie, which was strong, and advanced from 16½ to 17⅜ on the report that the road was doing a large business and some vague rumors of a favorable statement from the Receiver. At the close the market was weak and still lower. Northwest declined to 39⅛ for common and 54⅞ for preferred. St. Paul common fell off to 36¼, preferred to 63¼, Rock Island to 107⅛, Western Union to 78⅜, Lake Shore to 57⅞, Pacific Mail to 37⅛, and Hannibal & St. Joe to 23. Erie was the strongest stock on the list, rising from 16½ to 17⅜, and closing at 17⅜.

The transactions on the Stock Exchange aggregated 119,000 shares, of which 8,800 were Pacific Mail, 18,000 Western Union, 8,300 Northwest, 4,000 St. Paul common, 4,000 preferred, 26,000 Erie, and 42,000 Lake Shore.

LONDON, September 3—3 P. M.—The market was steady at the opening of business this forenoon, with a fair demand for American Government and railroad securities, although dealings were somewhat limited. Consols were dull and declined ⅛; United States 5-20s of '65 advanced ⅛; Erie is quoted ⅛ higher; New York Central & Hudson River Railway advanced ⅛; Virginia State bonds have risen full 1 per cent. since yesterday, and appear to be in strong demand for investment.

The *Times*, in its financial column, says there is increased firmness in the discount market, apart from other influences which may be expected to cause a greater demand for floating capital as we get into autumn. More than usual attention is directed to the requirements of the country in connection with the grain trade. It is known that we shall have to import an unusually large quantity of wheat, and it is equally certain that all malting barley will have come from abroad. The *Daily Telegraph* says the prospects are favorable for the hop harvest, which has already commenced. The damage done by mould and vermin is below the average.

LONDON, September 3—5 P. M.—Consols: money 94 7-16; account 94 7-16; 5-20s '65 106½; Erie 15; preferred 31. The Stock Exchange will be closed to-morrow for repairs.

Margin Speculations.

"Margin Speculations" in merchandise are denounced at length by the New York *Shipping List* as a curse to all legitimate business. These tranfactions are all fictitious. No merchandise changes hands. The prices named are not paid, and parties often buy and sell what they do not have and could not house if they had. Nothing is paid but the difference of prices.

The methods of Wall street have been carried into all branches of mercantile business, and the capital which ought to be the basis and measure of a merchants operations, and the strong foundation on which he rests, is turned into a margin to be staked on the chance fluctuations of the market and liable to be swept out of sight by a sudden change of values. In every direction these great hollow shells, floated along by their debts, have one after another collapsed, and astonished the world with their emptiness.

The merchant who turns his capital into a margin, to make a fortune in a season, is devoid of sound business sense—is in fact a fool. If he risks, in the same way, money which others have trusted with him, he is criminal. It would be a mournful chapter in the history of the past three years to tell the tale of the poor unfortunate ones whose very life-blood has been drawn by the splendid gamblers who have been forced to raise their stakes when on the verge of ruin. The country does not need those brilliant men, though they may seem to occupy a very large place in it. While they are successful, their example is a curse; and when the end comes, they carry sore distress into thousands of quiet, happy homes. Many branches of business are suffering to-day from this fatal system of operating in the staple products of the country. The manufacturer and the dealer find no margins, because those which their enterprise have shaped are destroyed by the unnatural floods which weak speculators precipitate. A large part of the daily transactions of the Produce Exchange are purely speculative.

COMMERCIAL.

Condition of the Markets at Home and Abroad.

DAILY REPORT OF PITTSBURGH MARKETS.

OFFICE OF PITTSBURGH GAZETTE, FRIDAY, Sept. 3, 1875.

We notice that some of our commercial exchanges are hopeful in regard to the future, notwithstanding the recent financial troubles, which for a time clouded the outlook. A Boston paper says the stock of goods that were piled up there in first hands a month ago are going into channels of distribution, and expects that all the industrial machinery, common to New England, will soon be in operation again. Some of the "knowing ones" continue to predict that the coming winter will be harder than the one preceding it, but we are hopeful that their expectations will not be realized.

BUTTER—The market is quiet and devoid of any new or important features deserving of special notice; the demand is only fair and prices are easy, although without quotable change. Sales of prime to choice, solid packed, at 23a25c. Commission merchants are so absorbed in the fruit trade, that they are giving but little attention to Butter.

CHEESE—There is no change to make in quotations, and trade is only fair; sales of prime Ohio Factory, in a jobbing way, at 11a11½c.

EGGS—The market continues quiet and unchanged at 15a16c for fresh, guaranteed as such.

FRUITS—The market continues well supplied with Peaches, but prices, particulary for good, sound fruit, are still maintained; $1a1,50 per box. Plums $3a4 per bushel. Apples $3a4 per bbl. Blackberries $1,25a1,50 per bucket.

FLOUR—There is no improvement to note in the demand, which has been light for some weeks past, and prices are easy, although without quotable change; $7a7,50 for fair to choice brands of old stock, either winter or spring. Some dealers report that they are not asking above $7,25 for their best brands to good buyers.

GROCERIES—There is nothing new to record, excepting that our New York dispatch reported Coffee easier, although as yet there has been no quotable decline, at least the brokers here, so far as we can learn, are offering no special inducements to buyers. Sugars steady; refined goods held firmly by refiners at full rates. A meeting of the creditors of the Calvert Sugar Refining Co. was to have been held in Baltimore yesterday, and it is said that the statement to be made would show a much more favorable state of affairs than was made immediately upon their suspension.

GRAIN—There is no abatement in the demand for old Wheat and no increase in the receipts, hence the market is firm, although prices are not quotably higher; $1,50 a1,55. Several lots of new crop have been on the market within the past few days, but the most of them were in poor condition, having been damaged by the rain; we are cognizant of a sale of one car prime at $1,44, but quotations may be given at $1,35 a1,40. The Oat market continues very dull, being largely overstocked, and prices are weak but not quotably lower; sales reported at 40c for mixed, and 41a42c for white. Several cars have been shipped east on consignment within the past few days, the Penna. R. R. Co. having agreed to pro-rate, and but for this the market would have been worse than it is. Corn continues dull, and prices are weak and drooping; Shelled quoted, on track, at 75a77, and ear at 78a80. Sales of new rye at 90. Fall Barley quoted at $1,20a1,25.

HAY—The supply of Baled continues light, and prices are still maintained; $20a22 per ton on track. Loose is higher; $15a20 from country wagons.

POTATOES—The market continues dull but unchanged; 25a30c per bushel on track. Sweets, $4a5 per bbl., the outside figure for prime Jerseys.

PROVISIONS—The demand was scarcely as brisk as it was a week or two since, but prices are pretty well sustained. Some operators predict that there will be but little change either way during the balance of the season.

THE IRON TRADE.

Pittsburgh.

PIG IRON.—There is a fair degree of activity in the pig iron trade for this season of the year, especially under existing circumstances, as the market for the products is in an very unsatisfactory condition, and while the demand, as a rule, is restricted mainly to supplying immediate requirements, prices are steady, and there is a very fair volume of business in the aggregate. Included in the sales reported was one lot of a thousand tons, on private terms, the largest sale reported for several weeks. No. 1 mill irons may be fairly quoted at $24, 4 mos.: No. 1 Foundry $27a28; No. 2, $25a26; White and Mottled $22a23. Some furnacemen are refusing to sell at quoted rates, but the mills thus far have been able to obtain all they want at $24, 4 mos., which appears to be regarded as the ruling price. Charcoal Irons continue dull, with a supply considerably in excess of present wants, but the stock of all kinds is comparatively light, and the production is very much reduced as compared with what it was a year ago. Following sales were reported:

MANUFACTURED IRON.—The general tone of the market for manufactured iron remains substantially as noted in our last report. Trade continues very unsatisfactory; not so much in consequence of a scarcity of orders, but it is complained that rates are unremunerative, and afford little or no margin for profit. It is true, that it was agreed at the last meeting of the Association not to accept orders under 2 40, sixty days for bars, but it is feared that this agreement will not be adhered to, as competition is so strong that it appears almost impossible to keep prices up to a living point. There is to be another meeting of the Association this coming week, when it is hoped some measures will be adopted, with a view of placing the trade upon a more substantial and satisfactory basis. It is said that our railway officials, if so disposed, could do a great deal toward infusing new life and vigor into the iron trade by reducing the cost of transportation, and thereby enabling our manufacturers to compete successfully with competing points who have the advantage of us in this particular, and we trust that the parties in question will give this matter their immediate and careful attention, as there is no interest more dependant upon the success of the iron trade of Pittsburgh than the railroads, as it is a source of large revenue to them.

NAILS.—The Nail trade presents no new or important features worthy of special mention; business has not fairly opened up as yet, but it is expected that orders will commence to come in pretty freely within the next few weeks, particularly as stocks are very much reduced, both in the hands of jobbers and consumers, and in addition, prices are very low, $3, 60 days, with 10c per keg off for one hundred keg lots and upward, and two per cent. off for cash. Horse Shoes, 4¾c per pound, cash, for one hundred keg lots, and Mule Shoes, 5¾c.

SCRAP IRON.—Continues very dull, but dealers are hopeful of an improved demand within the next few weeks. Prices nominally unchanged; No. 1 Railroad Wrought Scrap, $29a30, 4 mos., delivered at mills.

Chicago Lumber Market.

Freights were steady and without any quotable change, the few engagements made being on the basis on $1,50 to Manistee, and $1,37½ to Muskegon. About 33 cargoes comprised the fleet on sale to-day, and the market was steady and without any particular change. The demand, as has been the case for some time past, was decidedly light, the country trade showing a disposition to hold off, while the local demand was not at all active. Joists and scantling still sell at $8a8,25, and strips and boards are quotable at $8,00a14,00 for common to choice grades. Lath, $1,50. Shingles, $2,10a2,70. The market closed quiet.

PITTSBURGH PETROLEUM MARKET.

OFFICE OF PITTSBURGH GAZETTE, FRIDAY, Sept. 3, 1875.

The market for Crude was very firm and considerably excited, and as compared with yesterday, a sharp advance has been established; immediate shipment was quoted this P. M. at $1,30a1,32½; "Conduit" certificates $1,10a1,12½; "United," $1,09⅝a1,10. The sales at the source of supply are reported as having been unusually large during the past couple of days, and there is no special cause assigned for the flurry. Refined also strong and higher, in sympathy with the raw article; quoted at 11⅜c delivered in Philadelphia and Baltimore—sale of 500 bbls.; to be delivered on Connellsville cars here, at 9½c.

No change in Barrels.

Chicago Seed Market.

There was a large amount of common and only fair timothy offered on the market, but the demand was light and sales were slow at shaded prices. The supply of really prime was not large, and although a weaker feeling prevailed, former prices were maintained. Sales ranged at $2,30a2,55 for common to good, and $2,60a2,65 was paid for prime new; prime old sold at $2,70. The other descriptions, in the absence of sales, were entirely nominal.

Amusements.

At the Fifth Avenue Comedy Theatre there will be the two usual performances to-day, the afternoon matinee and the evening entertainment. "Jim Bludsoe" will be the leading attraction. It is in many respects a good play, has been drawing well all week and will doubtless wind up with eclat. There will also be two entertainments at Trimble's Variety Theatre. Mr. Aims has some of the best variety performers in the profession on his programme and the seeker of amusement at this establishment will hardly leave dissatisfied. On Monday the Academy of Music opens with the Stevens-Carlotta Combination in the play of "Robert, of Woodleigh."

European Agency.

Among the numerous European agencies in this city and Western Pennsylvania, there is none so well organized and so well established as that of our friend Max Schamberg, whose office is located at No. 163 Smithfield street. Mr. Schamberg is the leading agent for all the leading trans-Atlantic steamship lines; sells drafts for his own account on all the principal cities of Europe, and collects inheritances, legacies and all other claims throughout the world. He has considerable advantages in this over other agents, through the direct intercourse and correspondence he entertains with Europe. He deserves the patronage of our citizens, and we kindly bespeak for him a continuance of the confidence heretofore bestowed upon him.

THE BUSY BURGLAR.

Robbery in Allegheny—Clothing and Eatables Taken.

Some time during yesterday afternoon thieves gained entrance into the residence of Mr. Orr, in Buttercup alley, near Beach street, Allegheny, during the absence of the family and after going through the house thoroughly, carried off eleven shirts, a pair of boots, a lot of other clothing, and a lot of jelly. The house was left in the greatest disorder. There is no clue to the thieves.

About three o'clock yesterday afternoon the roof of Mrs. Bowers' house, No. 22 Main street, Allegheny, was discovered to be on fire. The Ellsworth Company extinguished the fire before much damage was done and without sounding an alarm.

At half-past eight o'clock last evening an alarm was sounded from box 52, occasioned by fire being discovered in the second story at the house at the corner of Madison avenue and First alley, occupied by Mr. Reitzel. The department was out promptly and extinguished the fire. A quantity of bed clothing was destroyed, besides damaging the upper portion of the house. Loss about $100.

CUT HIS THROAT.

A South Side Furniture Dealer Attempts to End His Mortal Career.

This morning shortly before one o'clock, Wm. Woodward, a furniture dealer on the South Side, attempted to commit suicide by cutting his throat. He was discovered before he had fully accomplished his purpose, and physicians were summoned. The cut was a very bad one, however, and he is not expected to recover. He resides on Carson street, between Eleventh and Twelfth, and has a wife and several children. No cause is assigned for the rash act.

AN OLD OFFENDER.

Arrest Last Night of James McAuliff Long Since Reported Dead.

The series of shooting affrays which occurred a year or more ago between "Bull" White, Jimmy Donovan and Wm. McAuliff are doubtless still vivid in the memory of the public. The result of the shootings, in one of which McAuliff was badly wounded, was the committal of White and Donovan to the Penitentiary, and the escape of McAuliff who was thought to be so seriously hurt that he could not get away. However, when the officers went to get him it was found that he had flown, and the last news from him, which was some months ago, was that he had died in Philadelphia from the effect of the injuries received here. It now turns out that he is not dead at all, but is at this writing reclining in the Pittsburgh Central Police Station. He was arrested last night by detective Roger O'Mara, and as the old charges against him are still valid he will perhaps soon be brought to trial.

RURAL THOROUGHFARES.

Business Before the Road Committee Yesterday.

The Road Committee met in monthly session yesterday afternoon in the City Clerk's office. The August pay rolls were read and approved, as follows:

First District	$ 647 70
Second "	766 99
Third "	863 12
Total	$2,277 81

Mr. Bruce moved that Christ. Weaver, who has the contract for breaking stone on Greenfield avenue, be required to break the amount which is short on his contract, and that in case of failure proceedings be instituted against his bondsmen. The contractor claims that more stone was delivered than the Engineer measured. He asked that the committee meet some day next week to hear a report. The request was granted, and the committee decided to meet next Friday, when the Engineer will submit his report of the measurement of the stone.

An estimate for one thousand perches of stone at thirty-seven cents per perch was allowed contractor M. Addis, on Hazlewood avenue.

The Engineer was instructed to advertise for one hundred additional perches of stone on Wilkins avenue, one hundred on Westminster street and one hundred on Emily street and for proposals for breaking the same.

The claim of W. H. Smith for damages sustained by a carriage, which was broken because of the insecure condition of Terrace and Robinson streets, was referred to a sub-committee, consisting of Metzgar, Bruce and Evans to examine and report.

The bill of K. Bracken for filling stone on Sylvan avenue bridge amounting to $55, was ordered to be paid. The following bills for stone were laid over: J. McKibben, $423; John Rohe, $130 50; John Ryland, $240.

The assessments for the grading, paving and curbing of Ridge street and for the grading of Beatty street were approved.

Adjourned.

THE MANSFIELD FRATRICIDE.

Inquest on the Remains of the Murdered Man—His Assassin Still at Large.

Mention was made in our issue of yesterday of a cold blooded murder, which took place near Mansfield on Thursday night about eight o'clock, in which Samuel Marshall was killed by William Green and the particulars of the tragedy were given in full. Yesterday morning Coroner McCallin went out to Marshall's late residence and held an inquest on the remains of the deceased and in the testimony, which was elicited, but few additional facts were brought out besides those already published. The division of the potatoes, which was the immediate cause of the quarrel between the two brothers, was a very small affair, only consisting of one row on the farm of Isaac Ross, which were not worth, all told, over five dollars. The wound caused by the rifle ball was a serious one, the missile having entered the abdomen on the left side and did not stop until it had gone almost through the body. It will be remembered that we stated yesterday that after firing the fatal shot the murderer struck his victim over the head with the gun barrel. The blow produced a fearful scalp wound, laying bare the skull, but did not fracture any bones. The deceased was highly respected, and the neighbors express great sympathy for the afflicted family. After hearing the testimony in the case the coroner's jury rendered a verdict of "Murder at the hands of William Green."

Great effort are being made to effect the arrest of the murderer. When he left home he had no shoes on his feet, and was attired in a striped shirt, dark pants and a felt hat. He weighs about one hundred and seventy pounds, is a about twenty-seven years of age, very dark complectioned and is spoken of as being finely built. The County Commissioners intend offering a reward for his arrest.

Marshall, the murdered man, was single, and formerly resided at Newport, West Virginia, and has only been located in Allegheny county for a few years.

A dispatch was received in this city this morning stating that Green was seen last night at Jeffreystown, near Clinton, in this county at 10 o'clock. He was going toward Steubenville or some point on the river, and was still bare-footed. He is an old boatman.

These meetings are independent of any special temperance organization, and are attracting large audiences, the room on last Sunday evening being filled in every part. Mr. Moore, from the committee appointed to consider the matter of repaving Market street, in the Diamond, submitted a report stating that after making a careful examination they had concluded to recommend that the street be paved from the north end of the market buildings to the south end of the same, from curb to curb, with the rectangular block stone pavement, the committee believing that to be the only kind of pavement that will stand the heavy traffic of that locality. The report was received and filed, and the Commissioner was ordered to have the street paved with the material recommended.

Mr. Boucher, from the committee having the matter in charge, recommended that a temporary wooden bridge be erected over Thirty-third street for the purpose of connecting the old part of Liberty avenue with the new and raised portion. The report was received and an ordinance embodying its recommendations was directed to be prepared for presentation to Councils.

A petition for the cutting down of Spring alley at its intersection with Race, or Thirty-fifth street, was presented and referred to a sub committee.

Mr. Liddell, from a special committee, reported that the officers of the Pennsylvania Railroad have so changed the natural course through which the water from the hill in the Thirteenth ward passes that a heavy excess of water on Twenty-fourth street follows every rain. He suggest, as a remedy, that either walls be built or sewers constructed on Twenty-third and Twenty-fourth streets. The latter, however, is objected to by the residents. The matter was referred to the City Solicitor, City Engineer and Street Commissioner to afford the necessary relief.

A petition from citizens of the Eleventh ward requesting Councils to take measures that will prevent Edward Bailey from quarrying Arch street away was read, and the City Attorney was directed to institute suit against Mr. Bailey for the purpose of putting an end to the nuisance.

The South Side Street Commissioner was ordered to place the sidewalks on Mary street, between Seventeenth and Eighteenth streets, in good condition.

A remonstrance against a sewer on Bates alley, in the Seventeenth ward, and a petition for and remonstrance against the cutting down of Fourth avenue, between Grant and Ross streets, was received and filed.

A resolution presented by Mr. McClurg, directing the construction of wooden steps from the tracks of the P. V. & C. R. R. to Manor street, opposite the freight depot, in the Thirtieth ward, was passed, and another resolution, offered by the same gentleman, instructing the Street Commissioner to take charge of the bridge on Thirty-fourth street, South Side, was referred to a sub-committee. Mr. Metzgar also submitted a resolution providing for the appointment of a committee to look after a change of water course in the Eighteenth ward, and it was adopted. A fourth resolution by Mr. Nesbit, for the repairing of steps in the Twenty-seventh and Thirty-first wards, was referred to the Street Commissioner, with power to act.

A resolution instructing the Street Committee to employ all tramps on the streets, and, as compensation for their work, to furnish them with food and shelter, was laid on the table.

City Engineer Dempster was ordered to prepare a plan for the numbering of houses on all the streets in the city.

Mr. Weldon offered a resolution providing for the appointment of a committee to examine Penn avenue, from the point to Butler street, report any repairs that may be needed and suggest a plan for making them. It was adopted and the chair appointed Messrs. Weldon, Taylor, Wainwright, Moore and Metzgar as the committee.

A sub-committee was given charge of a petition for and remonstrance against the opening of May street, South Side, from Thirtieth street eastward. The City Engineer was directed to report a grade for Twentieth street, from Carson to Water streets, South Side.

A petition from D. F. Kimball for extra compensation to the amount of $150, for extra work done on the bridge over Saw Mill Run, was read and referred to a sub-committee in connection with the City Solicitor and Engineer. A bill from the contractor for the balance due on the building of board walks on Brownsville avenue and North street was referred to the City Attorney. A petition presented by Dr. Arnholt asking for the relief of a number of parties from paying their assessments for a board walk at the head of Eighteenth street, South Side, was referred to a sub-committee.

Quite a number of petitions and remonstrances, almost ancient from age, were read and filed. In most cases the improvements asked for had already been made. Clerk Booth then announced that for the first time in several years the desk of the Street Committee was clear and that no business would go over for action at a future meeting.

On motion of Dr. Arnholt a committee was appointed to consider the propriety of erecting a dam at the foot of the hollow at the coal depot of the Castle Shannon railroad, on the South Side, to prevent the earth from being washed on Carson street every time a rain occurs.

Ordinances were ordered and affirmatively recommended for the opening of Lelia street, Thirty-second ward; for the assessment of damages caused by the grading of Wylie avenue; authorizing the widening to the extent of one foot of the sidewalk on Thirty-fifth street; for the numbering of the houses on Pius street, Twenty-seventh ward; for the opening of Meyer avenue, Thirty-second ward; for the paving and curbing of Rose street, from Dinwiddie to Overhill streets; changing the name of Railroad street, Thirty-second ward, to Grace street; for the grading and paving of Twenty-eighth street, South Side; for the paving of Pearson's alley, Seventeenth ward; for the opening of Hoffman street, from Grand avenue to Gardner street, Thirty-second ward.

The contract for the grading of Linden street was awarded to Samuel J. Grier at forty-three cents.

THE BALL AND BAT.

Defeat of the Iron City Club Yesterday by the Xanthas—The Reportorial-Legal Fray this Afternoon.

The game of ball at Union Park yesterday afternoon between the Xantha and Iron City clubs was just close enough to be interesting and almost exciting. It looked at one time as though the Xanthas were going to be beaten again, but after the fifth inning, when the score was even, they went to work with a little more energy, whitewashed their opponents and added two to their score. The Iron City Club is gradually becoming better, and intends to enter next year for the championship. Pratt did not play with the Xanthas yesterday, because he had business at Court which needed his attention and which would not admit of postponement. Guise's sore hand also prevented him from taking part in the game. The score is as follows:

The Postoffice nine defeated the Sponge Cups, of City Hall, yesterday afternoon by a score of 18 to 17. The game was played at Hazlewood.

DISASTROUS CONFLAGRATIONS.

Braddocks Fields Visited by the Fire Fiend—Eight Buildings Totally Destroyed—Supposed Cause of the Blaze—A Large Fire at McKeesport—The Loss.

Braddocks Fields was visited by a destructive conflagration about three o'clock yesterday morning, which involved a heavy loss to the property owners. At the time named a blaze was discovered in the rear part of a two story frame building on Braddocks avenue, occupied by Messrs. Sherwin Bros. as a feed store. The material in the house being exceedingly dry and combustible, the flames spread with alarming rapidity, and soon enveloped the entire building. This so frightened the citizens that they began to realize the necessity of speedy action, and every one able to lend a helping hand, did all in his power to keep back the flames which had gained the ascendency, and threatened to carry a number of buildings before them. Notwithstanding all that could be done, a two story frame store and dwelling on the upper side of Sherwin's took fire, and was soon reduced to ashes. The store room in this building was occupied by Mr. C. Fisher as a grocery establishment and general merchandise. The fire kept on its march, and next carried away Mrs. Haggerty's millinery store. Both the last named buildings were owned by Mr. Williams, who had an insurance on them of $1,500 in the North America Insurance Co. of Philadelphia. Mr. Fisher's loss is estimated at $4,500, and is fully covered by insurance in the Rochester of Pennsylvania and Mercantile of Chicago, in each of which companies he held a policy of $1,312.50. Mrs. Haggerty's loss will reach $4,500, upon which there is an insurance of only $1,900.

When the fire had reached this point it was thought best to devise some means to prevent its spread, as it threatened to do much damage, and the men proceeded to tear down two small buildings, one owned by G. M. Hughes, worth about $250, and the other by John James valued at $300, which had the desired effect. James kept a cigar store in his house and sustained, in all, a loss of about $500, upon which there is no insurance.

While the attention of the crowd had been mainly attracted to the upper part of the street, where the greatest damage was being done, the destructive element had made considerable headway in a westerly direction, from the starting point. A blacksmith shop, owned by Mr. Jesse McCune was totally destroyed together with a lot of tools and lumber. The loss is estimated at $1,000; insurance $500. Adjoining this on the west was a store and dwelling house of Mr. Andrew Krauser, who succeeded in removing most of his stock in a damaged condition, but the building was destroyed. Loss about $3,000; insurance $2,700. The shoe store of Mr. Henry Bernhardt, being in the unfortunate row, had to succumb; loss $2,200; insurance $1,000, in the Farmers', of York, and National, of Allegheny. A brick building, owned by Messrs. Laughlin, was torn down to prevent the progress of the fire, the goods being removed in a damaged condition. A building owned by John Ebner was damaged to the extent of about $500, which is fully covered by insurance. The wagon shop of Jacob Betz, Lytle's market house and the drug store of William Fausett were pretty thoroughly scorched, but did not suffer any further damage.

Those who labored to prevent the spread of the flames did so under great disadvantage as there was a short supply of water. A telegram was sent to this city for help and Chief, McElory placed a steamer on board a car to go to the scene of the conflagration. A second message stated that the fire had been gotten under control and it was decided not to go out.

The total loss is supposed to be between fifteen and sixteen thousand dollars and the fire is thought to be of incendiary origin. The matter was investigated by the proper authorities yesterday.

A BLAZE AT M'KEESPORT.

Just as Chief McElroy was about to unload the engine which had been placed on a car to go to Braddock's, a dispatch was received from McKeesport, stating that a destructive fire had broken out at that place about one o'clock, and asking help. The engine was taken up in haste, and rendered very efficient service. A row of tenement houses owned by the National Tube Works, consisting of twenty buildings, was entirely destroyed, involving a loss of $10,000; insurance $9,000. The tenants succeeding in getting most of their household effects out, but in a very bad shape. A large number of families were left entirely homeless, and were thrown upon the charities of the people. Arrangements were made yesterday by the citizens to provide a place for them temporarily until they can secure other houses. The McKeesport people speak in the highest terms of the Pittsburgh firemen, who did much to save the endangered property.

CITY SANITARY REGULATORS.

Session of the Board of Health Yesterday—Last Month's Report—Delegates to the National Association—The Board to Pay Their Expenses.

After numerous abortive attempts, the Board of Health succeeded yesterday afternoon in getting a quorum. The minutes of the previous meeting were read and approved, after which the July reports, published in Thursday morning's Gazette, were presented and filed. The following August reports were then submitted:

Dr. Snively, Physician to the Board, reported that on the 1st of August but one small-pox patient was in the Pest House. He died, and none have been received since. Health Officer Gray reported that last month 818 nuisances were abated, 5 suits instituted, and 137 permits to clean cesspools granted. The office receipts were $339.50. Both reports were received and filed.

The public health report for August, also prepared by Dr. Snively, shows that the total number of deaths during the four weeks ending the 28th ult. was 301. The death rate was equivalent to 27.95 per 1,000 inhabitants annually, against 30.74 for August, 1874. There were 197 deaths of infants under one year of age, and 85 of children between the ages of one and five years, making 64 per cent. of the total mortality for the month, against 67 per cent. for August, 1874. The number of deaths of persons 70 years of age and over was 14. Diarrhoeal diseases caused 92 deaths, against 84 for the previous month. An increase is also noted in the mortality from typhoid fever, diphtheria and puerperal diseases, while the deaths from scarlet fever, whooping cough, measles and pulmonary affections are about equal to that of the previous month.

The table of comparative mortality is as follows:

August 1873	398
" 1874	324
" 1875	301

The Board approved a number of bills and ordered them to be paid, and a requisition on the City Treasurer for $2,000 was directed to be made.

The Solicitor of the Board brought to its attention the matter of a nuisance on a lot fronting on Twentieth street, in the Twelfth ward. It appears that the lot is owned by Mr. W. M. Darlington, but in 1852 an act was passed by the Legislature, extending Pike street, provided ten citizens of the city should petition for it. If this had been done, the extension would have taken this lot entirely. The petition was never made, however, and the street was not opened. Still Mr. Darlington claims that the Act of Assembly in itself opened Pike street and took his lot away from him, and now as he does not own the lot, he refuses to abate the nuisance. It was decided to enter suit against Mr. Darlington and determine the ownership of the lot.

Dr. Asdale moved that the Board appropriate $100 to defray the expenses of the delegates from the Pittsburgh Board of Health to the meeting of the American Public Health Association to be held November 10th next, at the city of Baltimore.

President Slagle was decidedly opposed to paying any money out of the treasury for that purpose. The motion was passed, however, Messrs. Arthurs, Thomas, Mitchell, Asdale and McCann voting for and Messrs. Slagle and Graham against it.

After ordering warrants for the payment of the salaries of the officers for August, the Board adjourned.

IN THE GROVE.

The Loyalhanna Camp Meeting—The Closing Services.

Correspondence of the Pittsburgh Gazette.

Loyalhanna Camp September 1, 1875.

The services at 1:30 P. M., were the most marked of the meeting. Rev. J. J. Hays preached a very earnest sermon from I Peter 2d chapter and 1st verse—presenting in the clearest scripture light the preciousness of the Lord's Christ. At the close of the sermon an invitation was given to seekers, when about forty penetents presented themselves at the altar. This service was Pentecostal in power. In the midst of the meeting the congregation rose to their feet and thrice sang "Praise God from whom *all* blessings flow." It was a remarkable scene. The services of Tuesday morning were very interesting. A host rose up as witnesses of saving grace. At 10:30 A. M., Rev. J. A. Danks preached a very sweet spirited sermon from the theme, the voice of God calling to the erring. It was full of holy unction and went to the souls of the congregation with a power that melted all hearts.

The grandest of the childrens meetings was held at 2:30 P. M., under the direction of Rev. M. J. Montgomery. The climax of the meeting was reached at the afternoon service, when Rev Mr. Brady, of the Newark Conference preached a delightful sermon from Heb. 11 chapter, 3d verse on the "Great Salvation." The sermon was unique and original. At the close of the sermon the Camp Meeting Trio sang "When the mists have cleared away," and the meeting cleared in great enthusiasm. It was one of the most enjoyable and most profitable meetings ever held here. S.

THE LAST DAY.

Concluding Exercises of the Teachers' Institute—A Choice Entertainment Last Night.

Yesterday was the last of the session of the Pittsburgh Teachers' Institute. In the forenoon Prof. Burtt lectured on "English Grammar," the main features of which were the common errors of ordinary conversation. He was followed by Prof. L. H. Eaton, who delivered an address on "The Relation of Principal and Teachers." In the course of his remarks he said that in the early history of our schools the best families felt under obligation to send their children, in order to give the schools character. The Board of Directors were then composed of the very best men. Prof. Eaton was throughout listened to attentively. Some of his illustrations were so appropriate as to elicit the applause of the listeners. He adverted to the importance of regular attendance, a better discipline, and described the duties of teachers and principals. In conclusion, he said, as our schools are now managed, with all parties taking a proper view of their work and exercising forbearance, he saw no reason for anything but the most cordial good feeling.

In the afternoon the Committee on Resolutions submitted a lengthy report, and President Luckey delivered his annual address.

Last evening the closing exercises were held. They consisted of a complimentary entertainment made up of music, both vocal and instrumental, together with reading selections. At half-past seven o'clock the exercises were opened with instrumental music by Toerge's orchestra, which rendered a piece entitled "The March of King John from Saxony" in admirable style. This was followed by "The Harvest is Passing By," the Allegheny Quartette appearing before the audience, which was received with a round of applause. The next thing on the programme was an instrumental selection by the Orchestra.

Prof. Andrew Burt took the rostrum and said that, contrary to the expectations of some present, there would be no dancing allowed. He gave as the reason for this order that the middle wall supporting the floor was cracked, which made it necessary that no extra shaking of the building should take place. He thought it would be at some risk to engage in an exercise of this character under the circumstances, and said those in charge would enjoy a little sport of this kind as well as those who might take part, but deemed the explanation sufficient to banish all desire to engage the in fantastic step.

Prof. C. C. Cochran said it was not the intention to have dancing at any rate, as the directors thought it ill-timed, and not the proper place for such amusement.

A solo named "What Care I" was next announced, by Miss Ida Wilkinson. The young lady performed her task with great credit to herself and entire satisfaction to the audience, receiving an *encore* at the conclusion of her singing. She possesses a fine voice which showed cultivation, and merited the applause she received.

Toerge's Band gave another instrumental selection, which was followed by a select reading by Prof. William Mason Evans, who read "Death of Little Nell." The selection proved a happy one, and the Professor held the attention of the audience very closely for a quarter of an hour, which signified its appreciation of the reading by hearty applause, as he retired from the stage.

Another instrumental selection was played by the Orchestra, when a duett entitled "Off in the still of night," by Misses Ida Wilkinson and Estelle McCullough followed. The performers were called before the curtain the second time, notwithstanding the effort to go on with the programme. The piece was admirably sung, and called forth rapturous applause.

Music by the Orchestra was next in order, which closed the exercises of the evening, and the audience dispersed. The attendance was very large, and the entertainment throughout was a success.

FAST TRAVELING.

Riding on a Rail Like a Streak of Greased Lightning—From New York to Chicago in Twenty-six Hours.

There has been considerable talk recently of fast trains from the East. Eastern journalists who have been discussing the question, seem to think that the idea originated in New York, in which, as in some other instances, they are mistaken. Col. Tom Scott, of the Pennsylvania Railroad, it is pretty generally conceded among railroad men, was the first to broach the subject to the Government, and for the past two years he has been endeavoring to make arrangements for a fast mail train between New York and Chicago. At last he has succeeded, and perhaps in less than a fortnight, passengers who wish to enjoy the exhilaration of outstripping the gentle zephyrs may indulge somewhat in that pleasure. The fare will be a little higher than the ordinary rate. It is proposed to establish a train to make the trip between New York and Chicago in twenty-six hours. The train will consist of a locomotive, two postal and one parlor car,—the latter capable of accommodating from forty to fifty people. Already the postal cars have been completed. They are all painted spotless white, and bear the inscription in gilt letters, "Pennsylvania Railroad, Limited Mail." The train will start from New York at 4:30 one morning, and the passengers, after

"Shooting under arches,
Rumbling over bridges,
Buzzing o'er the mountain,
Whirring o'er the vale,"

will debark the next day at Chicago in time to hear the gong ring for early breakfast. To accomplish this feat, of course there will be no loitering along the route. The mails will be "taken up" along the way as the train cleaves the air, by the patent appliances, which will not require stoppage. Passengers with wigs or waterfalls will probably not be admitted, as it is feared no hirsute adornment but the real genuine deeply-rooted article would stick to the scalp on the journey. The man, however, who wishes to have his enemy snatched bald-headed will be allowed to present him with a ticket for this train; he will thus accomplish his object without conflicting with any Act of Assembly. The train will emphatically be a screamer, felicitously appropriate for a fast age, a fast people, and fast business. It will start out for the first time on the 12th inst., if the Government is ready to accept it then, or as soon thereafter as the Postal Department can arrange the mails for it.

Memphis, September 3, 1875.

The river fell 10 inches; now stands 12 feet on the gauge, having fallen twenty-two feet. Clear during the day; mercury 92. Arrived—Parker, Cincinnati. Departed—Helena, Grand Lake No. 2 and Belle of Shreveport, St. Louis; White, Vicksburg, Bee and barges, New Orleans.

The stage of water last evening was 15 inches by the metal marks, which would make 21 or 22 inches in the channel. No arrivals or departures, and there are no boats due.

The towboat John A. Wood is laid up at Coalport.

The Alice Brown and tow is laid up at California Rocks, near Huntingdon.

The John L. Rhoads was reported aground at Cox's Riffle, below Steubenville, on Thursday. The Ashland arrived at Wheeling on Thursday evening, drawing 18 inches.

The contract for carrying the mails in White River has been awarded Capt. Milt. Harry.

The Salt Valley has gone on the dock below, and will not be here next week in consequence.

St. Louis collected $2,723.68 wharfage in August, of which $840.90 was from steamboats and barges.

Capt. John Shouse, a well known pilot, has been ill with fever at the Nelson House, in Mt. Vernon, Ohio.

The steamer John W. Garrett sunk at Gunpowder, 50 miles below Cincinnati on Tuesday. She can be raised.

The Fannie Tatum arrived at St. Louis on Wednesday, completing her fourth round trip from St. Louis to Pittsburgh.

Andrew Craig, (colored), rouster on the steamer Robert Mitchell, is the only death reported at the U.S Marine Hospital, Louisville, during the month of August.

Capt. Dugan's new wrecking boat has resumed work on the sunken barge Iron Mountain, near Mt. Vernon, and, as there are fifty barrels of whisky on board the sunken craft, it is thought the work will proceed with facility.

The sunken coal barges have all been removed from the river at Marietta, excepting a fuel flat, and the bar at the mouth of the Muskingum was washed clear away. The marks at that point now give from 14 to 16 inches more water than there is in the channel there.

A telegram from Pine Bluff says the steamer Fort Gibson, hence for Little Rock, with a cargo of general merchandise, struck a snag near New Gascony last night, and shipped two feet of water, damaging the cargo in the hold, which is covered by insurance in local companies here. The boat can be raised with but little trouble.

A St. Louis dispatch, under date of 1st, says:—There is a rise of several inches at St. Paul and points below. This has proved a source of great relief to the Keokuk Northern Line steamers, and they are again making punctual time. From here to Cairo there is 6 feet, but the river is dreadfully cut up, and boats have to feel their way with caution. The Susie Silver cleared for New Orleans loaded to the water, and the H. C. Yaeger and Grand Lake and barges are announced to follow on Saturday. The Etna and barges leave for Ironton to-morrow, with 850 tons of ore. Rates unchanged.

We clip the following from the Cincinnati *Commercial* of Thursday:—A case was tried before United States Commissioner Hooper on Tuesday, in which the steamer Exchange was defendant in a suit brought by five of her deck crew to recover a months wages. The men were hired at Pittsburgh, and on the arrival of the boat here were paid off, as owing to the falling river it was uncertain whether she could get back. After receiving their wages for services performed, the men brought suit for the remainder of the month, and the judge decided in their favor, awarding each twenty dollars. The points of his decision were that as the men were shipped at Pittsburgh, they would have to be returned to that port. According to this decision, if the boat should enter any other trade, and not return to Pittsburgh the crew could still hold the boat for wages. As soon as process is issued against the Exchange she will be bonded out and appeal taken.

The Philosophy of Disease.

The philosophy of disease is a subject which is well worthy the attention of mankind, but is, unfortunately, more generally neglected than any other under heaven. Decidedly the most important fact that an examination of it discloses, is that, in nine cases out of ten, the originating causes of disease is debility, either general or local, and that the earliest manifestations of its approach are identical with those which evidence a lack of vital power. Such being the case, it is perfectly clear that tonic treatment is what is required in the first instance. As an invigorant, Hostetter's Stomach Bitters has received the most positive endorsement from eminent physicians, and has long occupied a foremost rank among standard proprietary remedies. Its properties as an alterative of disordered conditions of the stomach, liver and bowels, and a preventive of malarial diseases, are no less renowned, and have been accorded professional recommendation equally emphatic.
